NonStop Application Design and Development

Exam description
This exam tests your skills on NonStop Data Application Design and Development

Who should take this exam?
This exam is for the following personnel, with a minimum of one year experience on the NonStop S-Series platforms running the G-Series NonStop Kernel Operating System:
• Authorized Service and Support personnel
• Global Customer Support Center (GCSC) personnel
• Analyst SEs or Pre-Sales Technical Support (PSTS) personnel
• Developers, System Integrators and Consultant Partners, Application Designers and Developers, Customers authorized to service their own equipment.

Exam contents
This exam has 79 questions.

Tips for taking this exam
Go to the link for the Application Design chapter and review it for this exam: http://education.nonstop.compaq.com/us/cert/appdes.pdf
References to the majority of questions found in this exam can be found in manuals contained in the Online TIM (Total Information Manager) collections (This
guide typically references the latest release available in the TIM Document Collection).
TIM is a single interface to all NonStop Systems documentation and support information. External users must subscribe to the TIM CD collection. See your Compaq Representative for more information.
NOTE: TIM must be installed on your system before using the following default access settings. http://tex.tandem.com/cgi-bin/timcfg.exe
