

HP ASE - Cloud Integrator V1

This certification validates that you can install, configure and optimize HP CloudSystem Matrix. It also verifies you know what is needed to expand HP CloudSystem to include public and managed cloud services for a full hybrid cloud environment.

Why earn this certification?

- To be a valued member of your team helping lead and/or realize the benefits of cloud computing.
- To show you can install, configure and optimize the industry's most integrated, complete and open cloud computing architecture, HP CloudSystem.
- To gain additional benefits such as access to a community of HP engineering cloud experts and fellow certified professionals for ongoing synergy and growth.
- To enhance your career advancement and job satisfaction as a certified expert.

Candidate

Typical candidates should have at least 5-10 years experience in implementation, configuration, and administration of solutions that integrate multiple technologies. A strong converged infrastructure or data center background in either hardware infrastructure (storage, servers, and networking) or software solutions (automation, virtualization, security software).

Skill level

Expert

Steps to acquire this certification
