

HP ATP - Fortify Security V1

This certification verifies that you possess professional-level knowledge of the Fortify Products, and are able to utilize Fortify technology as a comprehensive security solution. This certification validates your capability to successfully recognize the major security risks associated with a digital environment and design a security solution using Fortify products to combat and eliminate these risks.

Why earn this certification?

- To validate your knowledge and skills to mitigate and analyze applications against common security threats using Fortify Security Solutions.
- To exhibit the knowledge and experience required to secure your company's IT systems.

Candidate

Typical candidates for this certification should have one to three years of either software development or software testing experience. Candidates should have some familiarity with common software vulnerabilities and be able to describe the software development lifecycle.

Skill level

Professional
